Junior Full Stack Java Developer

👤 ABOUT ME

Software Engineer with a proven ability to adapt in both self-starting and collabrative environments while staying focused on achieving high-quality results under strict deadlines. Eager to obtain a challenging position at a prestigious company like Dream Version that will expand my learning and build upon my developer skills.

The rationale for a gap in work should be well backend up by facts without making it sound dramatic or even negative, but with a clear view and focus on the positive way forward. Its is crucial to be candid and truthful. While showing the value addition of the specific break, in terms of career goals or life goals.
